

## We look forward to welcoming you on a tour of the Guernsey Electricity Power Station site.

The following is a list of guidelines we have put together in order to prepare you for your up and coming visit.

- Visitors will be subject to engine noise and a warm environment and will therefore have to wear hearing protection as well as other Personal Protective Equipment provided.
- Ear plugs, a high visibility vest and a hard hat will be provided.
- Open footwear should not be worn during the tour. Sensible flat shoes would be best. High or stiletto type heels are also not recommended.
- Any specific access requirements should be reported to your Guernsey Electricity contact when first arranging your tour. The tour does include accessing stairs however, wheel chair users can be accommodated using different routes around the site.
- The tour will last around 1 hour.
- We hope you enjoy your visit.

If you have any questions regarding any of the above, please contact us on **200700**.
